ERP MFG/PRO Enterprise resource planning systems
Progress/OpenEdge relation databas
Microsoft Szerver Exchange, Active Directory, SQL, CRM

EDUCATION AND CERTIFICATES

2011 – 2024
- Business Sales and Technical Sales Specialist
- Rancher Prime and RKE2 Deployment, Operation and Administration Specialist
- Rancher Kubernetes Distribution Administration

- Container Security Platform NeuVector Specialist
- Linux Management with SUSE Manager (Salt)
- SUSE Certified Administrator in Enterprise Storage (Ceph)
- Clustering with the SUSE Linux Enterprise High Availability Geo Clustering and SAN
- SUSE Certified Administrator & Engineer in Enterprise Linux
- Red Hat Enterprise Linux System Administration

2004 − 2008   College of Dunaújváros
- Vocational Teacher of Computer Engineering

2003 − 2007   College of Dunaújváros
- Information Technology - System Engineer

LANGUAGES

- Hungarian native speaker
- English intermediate level

PROFESSIONAL SKILLS AND COMPETENCIES

- **Negotiation Strategies:** based on the guidelines of Dale Carnegie
- **Project management:** scheduling, support, customer communication, consultation
- **Support**: prioritize, scheduling, support and coach collegues and developers
- **Product improvements**: specification, features request, bugs, design, testing
- **Content**: management, campaigns, marketing
- Unix/Linux servers, desktop solutions, mainframe systems, cluster stacks
- **Cloud:** Kubernetes, Enterprise Container Management Platforms, Container Security, Gitlab, Registry, Ingress, IoT és Edge computing, cloud-init és cloud-config, Harvester, CICD
- **HP** Blade és SAN operation
- **Networking**: openvpn, ipsec, vlan, firewall, troubleshooting
- **Virtualization:** VMware ESXi, XEN, KVM, HCI
- **Services:** clustering, management, virtualization, container, SDS, Web and applications, SQL, mail, LDAP, proxy
- **Security:** SIEM, Privileged Account Management, Policy and Rule management, audit, CIS hardening, firewall, backup strategies
- **Monitoring**: icinga2, nagios XI, logwatch, IDS, Prometheus, Loki, Grafana
- **ITSM and ticketing**: OTRS, osTicket, Redmine, Gant, Bugzilla
- **Versioning:** Gitlab, Gogs, svn
- **Documentation**: system design, implementation, operational description
- **Script languages**: bash, expect, python, perl, regexp, php

OTHER SKILLS

- Excellent analytical and technical mindset
- Leadership skill: professional adviser, support our customer
- Effective deep tech presentations and communication
- Looking for challenging opportunities
- Discover and deep into new technologies
- New ideas, creative thinking, unique approach
- Excellent individual performer and team player
- Abililty to self-study
- Customer-oriented problem solving
- Ability to meet deadlines
- Precision and accuracy
